

BOSCAROL PIRMOS MEDICININĖS PAGALBOS PRIEMONĖS

Eil. Nr.	Aprašymas
1.	 <p>616 - VERTICAL STIRRUP FOR SCOOP STRETCHER</p> <p>Certified vertical fixing system for scoop stretcher</p>
2.	 <p>650 - FOLDABLE CHAIR "MAYA"</p> <p>An essential implement to easily carry patients in places like stairs, corridors and lifts where stretchers usually cannot be used. It is supplied with four levers, the two lateral being adjustable both in height and length in order to improve transport in every situation. An automatic blocking device allows to open and close the chair in maximum security. Reduced dimensions when folded</p> <p>Alluminium frame light and easy to handle</p> <p>3 quick hook/unhook belts for patients immobilization</p> <p>2 fixed wheels to make the transport easier on smooth floors</p> <p>The first and only sedan chair with back rest and seat made with comfortable, practical and easy to clean thermoplastic materia</p>
3.	 <p>653 - FOLDABLE SEDAN CHAIR WITH FOOT AND ARMREST</p> <p>Sedan chair particularly designed to satisfy every transport need</p> <p>4 wheels, 2 of which rotating and with brakes</p> <p>Foldable arm rest and folding foot rest for the utmost safety of patient transport</p> <p>4 back levers (to facilitate operators during transportation on stairs) and 2 lateral sliding levers adjustable both in length and height</p> <p>Automatic blocking allowing safe opening and closing of the chair</p> <p>Anodized aluminium structure, handy and lightweight. Once folded, it needs very few space</p> <p>Backrest and seat made in thermoplastic material</p> <p>Complete with 3 quick unhook for patient immobilization</p> <p>Dimensions open: width about 53 cm; length about 73 cm; height about 90 cm</p> <p>Dimensions close: thickness about 26 cm; height about 98 cm</p> <p>Capacity: about 170 kg</p> <p>Weight: about 14 kg</p>

670 - "EXTRA" STAIR CHAIR

4. Extra is a stair chair with track system for stairs transportation
Entirely made in special Ergal alloy, it is nowadays the lightest in the market. The backrest and back carrying handles inclination, along with the unique frontal arms configuration, enable a perfect weights distribution, relieving operators' strengths.
Long and high-grip tracks allow the EXTRA stair-chair to be safely and handled on 3 stairs when descending with a seated patient.
While handling on smooth and plane surfaces, the 200 mm. rear wheels give exceptional comfort. Telescopic rear bar, turning foot rest with magnetic locks, innovative bio-mechanical solutions, complete the characteristics of this rescue device.
Complete with bag containing 3 belts.
Compliant to PR en1865-4 norm
Dimensions open: width about 55 cm; min length about 81 cm; max length about 142 cm; height about 101 cm
Dimensions close: thickness about 29 cm; length about 81 cm; height about 101 cm
Capacity: about 200kg
Weight: about 14,5 kg

910 - AUTOMATIC LOADING STRETCHER MB

5. Rigid steel structure allowing to absorb all sudden movements during transport also tank to its fixing system. The certification issued by TÜV Product Service grants its conformity to all current norms (EN-1865– EN 1789)
Back rest and lying part made with thermoplastic material reinforced to allow cardiac massage. Easy to clean and to disinfect
Adjustable back rest 0° - 90° moved by a gas piston which allow to fix the back rest safely in any position
Side protections completely overturning
Blocking device for folded legs with a system that avoid the compression of the blocking bar
Safety lever for the legs positioned near the unlocking device allowing thus the release operation for the loading, keeping the hands on the stretcher
Vertical legs protected by nylon wedges
Automatic balancing device mounted on rotating wheels. This system automatically block the back wheels in the central position during the loading of the stretcher on the ambulance without having to turn the wheels manually
4 wheels, diameter 150 mm, 2 fixed and turning, one of which anti-static
Complete with mattress and belts
Dimensions open: length about 193 cm; max loading height about 81 cm; min. loading height about 63 cm
Dimensions close: height about 22 cm
Capacity: 170 kg
Weight: 34 kg

6.

965 - FRONT FIXING SUPPORT FOR AUTOLOADING STRETCHER

Blocking system to be fixed on ambulance floor allowing autoloading stretcher central channel and frontal blocking. Made in stainless steel.

7.

16100 - RESCUE STRETCHER

Rescue stretcher, extremely lightweight, suitable for patient transport in uncomfortable environment conditions
Made in polymeric ABS material with aluminium frame
Complete of expanded polyutherane mattress and adjustable footrest
4 quick unhook security belts
12 transport handles
Arranged for the anchorage to helicopters
Dimensions: about 216x61x17h cm
Weight: about 15 kg
Capacity: max 300 kg

8.

16102 - 2-PIECES RESCUE STRETCHER

2 pieces rescue stretcher easy to store and transport
Made in polymeric ABS material with aluminium frame
Complete of expanded polyutherane mattress and adjustable footrest
4 quick unhook security belts
12 transport handles
Arranged for the anchorage to helicopters
Dimensions: about 216x61x17 cm
Weight: about 16 kg
Capacity: max 300 kg

9.

6400300 - RESCUE CAN

Rescue can, rescue buoy
 Light and imperishable
 Printed in high density polyethylene without joints
 Endowed with floating 186 cm rope and shoulder strap
 Non-homologated by nautical authorities
 It is not a medical device

10.

16100-001 - LIFTING SLING FOR RESCUE STRETCHER

Lifting sling for rescue stretcher to be fixed through 4 different points
 Supplied with individually adjustable belts for patient's different positioning
 Steel snap-hook for the fixing to the sling
 Lifting capacity: more than 1 ton

11.

654B - "QUICK" SEDAN CHAIR

4 wheels: 2 back wheels fixed (diameter about 125 mm) and 2 frontal rotating ones with brakes (diameter about 100 mm)
 Complete with 3 quick unhook for patient immobilization
 Dimensions open: width about 52 cm; min. length about 70 cm; max length about 126 cm; height about 90 cm
 Dimensions close: thickness about 22 cm; height about 90 cm
 Capacity: about 170 kg
 Weight: about 12 kg

12.

950/3 - BACK FIXING SUPPORT FOR AUTOLOADING STRETCHER

Built in stainless steel and mounted on ambulances to safety block the autoloading stretcher
 Available in 4 different heights

IMM120012 - VACUUM MATTRESS SDM NEW

13.

Vacuum mattress SDM with 3 independent chambers
 Realized in compliance with EN 1789:1999 norm
 CE certified in accordance with 1865:1999 norm
 Perfect and absolute immobilization of traumatized patient
 High resistance cloth
 External and compact aspiration valve with ¼ on/off system
 4 transport handles on each side
 3 safety belts
 100% X-ray transparent
 CAT scan compatible
 Complete of transport bag and pump
 Dimensions : cm 210x80 about
 Weight : about 7 kg

IMM120014 - SDM - VACUUM MATTRESS

14.

Orthopaedic vacuum mattress SDM with 3 independent chambers
 Realized in compliance with EN 1789:1999 norm
 CE certified in accordance with 1865:1999 norm
 Perfect and absolute immobilization of traumatized patient
 High resistance cloth
 4 transport handles on each side
 3 safety belts
 100% X-ray transparent
 CAT scan compatible
 Complete of transport bag and pump
 Dimensions : cm 210x80 about
 Weight : about 7 kg

15.

IMM120050 - CTS CHILDREN TRANSPORT SYSTEM

CTS, innovative newborn's and children's containment and transport system, absolutely safe on ambulances
 Fantasy fabric material, slightly stuffed
 Complete of safety-belts allowing to block the newborn in 3 positions, avoiding children usual dangerous and unexpected movements
 3 external safety belts allowing child further fastening
 3 belts allowing the fixing of the CTS to the stretcher, ensuring secure transport as per EN1865 directives
 Complete of transport bag
 Dimensions: about 110x70 cm

16.

IMM120060 - VACUUM MATTRESS BABY

Vacuum Mattress BABY, for safe rescue and transport of newborn - pediatric patients
Complete body immobilization
High resistant material
CAT compatible and X-Ray transparent
Ventil aspiration valve
4 transport handles
Dimensions: about 100x64 cm

17.

IMM120070 - INFANT TRANSPORT UNIT

Emergency system for safe newborn's transport in a warm and protected habitat
Innovative foldable-bag system cordura material allowing, when not used, to be taken everywhere, always ready to use
3 transparent sides allowing complete and continuous monitoring of newborn by medical personnel
Internal mattress ensuring comfortable transport
2 external handles for transportation
Arranged for the anchorage to the ambulance stretcher (EN 1789)
Dimensions open: cm 90x38x34,5
Dimensions closed: cm 90x38x15
Supplied with transport bag

18.

IMM120130 - PROFI VACUUM MATTRESS COMPLETE

New orthopaedic Profi vacuum mattress with 3 independent chambers
Realised in compliance with EN1789:1999 norm
CE certified in accordance with 1865:1999 norm
Perfect and absolute immobilization of traumatized patient
High resistance cloth
Protective cloth under the mattress
On/off external, compact ¼ suction valve
4 handles on each side obtained from the protective cloth itself
2 head-handles and 2 foot-handles
3 safety belts
100% X-ray transparent
CAT scan compatible
Complete of transport bag and pump
Dimensions: about 210x100 cm
Weight: about 8,4 Kg

IMM120140 - DOLOMITES VACUUM MATTRESS COMPLETE

New orthopaedic Profi vacuum mattress with 3 independent chambers
 Made in compliance with EN1789 norm
 CE certified in accordance with 1865 norm
 19. Perfect and absolute immobilization of traumatized patient
 High resistance material
 Protection removable made in washable Cordura
 On/off external, compact ¼ suction valve
 4 handles on each side obtained from the protective cloth itself
 4 coloured cross safety foldaway belts for shoulder/chest and legs
 2 head straps
 3 standard safety belts
 100% X-ray transparent
 CAT scan compatible
 Complete of transport bag and pump
 Dimensions: about 210x100 cm
 Weight: about 7,4 Kg

IMM120150 - PROFI VACUUM MATTRESS ORANGE

New orthopaedic PROFi vacuum mattress with 3 independent chambers
 Realised in compliance with EN1789:1999 norm
 CE certified in accordance with 1865:1999 norm
 20. Perfect and absolute immobilization of traumatized patient
 High resistance material
 Protective cloth under the mattress
 On/off external, compact ¼ suction valve
 4 handles on each side obtained from the protective cloth itself
 2 head-handles and 2 foot-handles
 3 safety belts
 100% X-ray transparent
 CAT scan compatible
 Dimensions: about 210x100 cm
 Weight: 8,4 Kg

IMM120154 - DOLOMITES VACUUM MATTRESS

21. New orthopaedic Profi vacuum mattress with 3 independent chambers
 Made in compliance with EN1789:1999 norm
 CE certified in accordance with 1865:1999 norm
 Perfect and absolute immobilization of traumatized patient
 High resistance material
 Protection removable made in washable Cordura

On/off external, compact ¼ suction valve
 4 handles on each side obtained from the protective cloth itself
 4 coloured cross safety foldaway belts for shoulder/chest and legs
 2 head straps
 3 standard safety belts
 100% X-ray transparent
 CAT scan compatible
 Complete of transport bag and pump
 Dimensions: about 210x100 cm
 Weight: about 7,4 Kg

22.

IMM120160 - GENESIS VACUUM MATTRESS

Orthopaedic Genesis vacuum mattress with 4 independent chambers
 Vacuum Head-Immobilisator integrated in the mattress itself with 2 chin-supports
 Made in accordance with EN 1789 norm
 CE certified in accordance with EN 1865 norm
 Perfect and absolute immobilization of traumatized patient
 The structure allows security belt passing through patient shoulders
 High-resistance material
 Cordura protection cover
 On/off external, compact ¼ suction valve
 3 safety belts
 2 additional coloured cross safety foldaway belts for shoulder/chest and legs in the case itself
 100% X-ray transparent
 CAT scan compatible
 Dimensions: about cm. 210x100 cm
 Weight: 8,8 kg

23.

IMM120174 - HAND VACUUM SPLINT

High resistant and washable material
 100% X-ray transparent (any metal parts included)
 External aspiration valve
 Quick and painless immobilization of all kind of fractures (even exposed ones)
 Suitable for use on baby patients
 Immobilizes without constrictions thus allowing blood circulation
 Dimensions: about 50,5x33 cm
 Weight: about 0,4 kg

24.

IMM120176 - ARM VACUUM SPLINT

High resistant and washable material

100% X-ray transparent (any metal parts included)
 External aspiration valve
 Quick and painless immobilization of all kind of fractures (even exposed ones)
 Suitable for use on baby patients
 Immobilizes without constrictions thus allowing blood circulation
 Dimensions: about 75x47 cm
 Weight: about 0,9 kg

25.  **IMM120180 - 2 VACUUM SPLINTS SET WITH CASE**

Set of 2 vacuum splints, leg and arm
 Suitable for paediatric use
 Absolute, fast and painless immobilisation of fractured limbs (even exposed ones)
 High resistant washable material
 Compact suction plastic valve with external ¼ on/off.
 Ensuring a perfect immobilisation but do not compress, and allow physiological blood circulation
 100% X-ray transparent (no metal parts included)
 Complete with transport bag and mini-pump
 Arm splint dimensions: about 47x75 cm
 Leg splint dimensions: about 64x92 cm
 Weight: 3,6 Kg

26.  **IMM120184 - 3 VACUUM SPLINTS SET**

Set of 3 vacuum splints: hand, leg and arm
 Suitable for paediatric use
 Absolute, fast and painless immobilisation of fractured limbs (even exposed ones)
 High resistant washable material
 Compact suction plastic valve with external ¼ on/off.
 Ensuring a perfect immobilisation but do not compress, and allow physiological blood circulation
 100% X-ray transparent (no metal parts included)
 Complete with transport bag and mini-pump
 Hand splint dimensions: about 50,5x33 cm
 Arm splint dimensions: about 47x75 cm
 Leg splint dimensions: about 64x92 cm
 Dimensioni of set: about 54x24x44(h) cm
 Weight: about 4 Kg

27.  **IMM120190 - 3 VACUUM SPLINTS SET**

Set of 3 vacuum splints: hand, leg and arm
 Suitable for paediatric use
 Absolute, fast and painless immobilisation of fractured limbs (even exposed ones)

High resistant washable material
 Compact suction plastic valve with external ¼ on/off.
 Ensuring a perfect immobilisation but do not compress, and allow physiological blood circulation
 100% X-ray transparent (no metal parts included)
 Complete with transport bag and mini-pump
 Hand splint dimensions: about 50,5x33 cm
 Arm splint dimensions: about 47x75 cm
 Leg splint dimensions: about 64x92 cm
 Dimensioni of set: about 54x24x44(h) cm
 Weight: about 3,6 kg

IMM120200 - 2 VACUUM SPLINTS SET

28. Set of 3 vacuum splints: leg and arm
 Suitable for paediatric use
 Absolute, fast and painless immobilisation of fractured limbs (even exposed ones)
 High resistant washable material
 Compact suction plastic valve with external ¼ on/off.
 Ensuring a perfect immobilisation but do not compress, and allow physiological blood circulation
 100% X-ray transparent (no metal parts included)
 Complete with transport bag and mini-pump
 Arm splint dimensions: about 47x75 cm
 Leg splint dimensions: about 64x92 cm
 Dimensioni of set: about 54x20x44(h) cm
 Weight: about 3,2 kg

IMM120210 - 2 ANATOMIC VACUUM SPLINTS SET

29. Set of 2 anatomic conformed vacuum splints usable for leg, arm and ankle
 Absolute, fast and painless immobilisation of fractured limbs (even exposed ones)
 High resistant material
 Compact suction valve with external ¼ on/off
 Protection bags in tearproof, impermeable material, with rapid hook/unhook fixing and moulding system
 Ensuring a perfect immobilisation but do not compress, and allow physiological blood circulation
 100% X-ray transparent (no metal parts included)
 Complete with transport bag
 Arm/ankle dimensions: about 68x38x53 cm
 Leg dimensions: about 60x92 cm
 Dimension of set: 54x18x44(h) cm circa
 Weight: about 2,8 kg

IMM120218 - VACUUM SPLINTS BAG

30.

	<p>Transport bag for vacuum splints Made in red nylon material Easy and safe transport and storage of splints Dimensions: about 54x16x44 cm Weight: about 600 gm</p>
31.	 <p style="text-align: center;">IMM120220 - MAXI ASPIRATION PLASTICA PUMP</p> <p>Aspiration pump for vacuum splint and mattresses Made in plastic material with internal metal bucket Foot support Double flow with inflation possibility Dimensions: about 22x10x44(h) cm Weight: about 700 gm</p>
32.	 <p style="text-align: center;">IMM120240 - MAXI SUCTION PUMP</p> <p>Suction pump for vacuum mattress and splints Made in aluminium with foot support for easy aspiration Dimensions: about 13x5,5x54(h) cm Weight: about 1,4 kg</p>
33.	 <p style="text-align: center;">IMM120260 - ALUMINIUM MINI SUCTION PUMP</p> <p>Suction pump for vacuum mattress and splints Made in aluminium Dimensions: about 4x32 cm Weight: about 500 gm</p>
34.	 <p style="text-align: center;">IMM120262 - MINI HIGH EFFICIENCY ASPIRATION PUMP</p> <p>New mini high efficiency aspiration pump Powerful, practical, lightweight and small Suitable for vacuum splints and for vacuum mattresses alike Made in plastic with aluminium cylinder Complete with pvc tube (about 1 mt) Dimensions: about 6,5x33 cm</p>

	Weight: about 400 gm
35.	 <p style="text-align: center;">IMM120270 - PNEUMATIC SPLINT SET – 6 PIECES</p> <p>Set of 6 pneumatic splints Short and long leg, short and long arm, ankle, hand Simple inflation valve Made in PVC material, resistant from -25°C to + 45°C Supplied with pump Practical transport bag Dimensions set: about 38x39x5(h) cm Weight: about 1,8 kg</p>

36.	 <p style="text-align: center;">IMM120280 - SET 3 PLASTIC BUCKLE FIXING BELTS</p> <p>Set of 3 stretcher fixing belts Quick hook-unhook plastic buckle Complete with case with Velcro closing</p>
-----	--

37.	 <p style="text-align: center;">IMM120282 - SET 2 METAL BUCKLE FIXING BELTS</p> <p>Set of 2 closed safety belts Quick hook-unhook metal buckle Dimensions: about 5x180 cm</p>
-----	---

38.	 <p style="text-align: center;">IMM120284 - SET 2 PLASTIC BUCKLE SAFETY BELTS</p> <p>Set of 2 2-pieces safety belts with loop Quick hook-unhook plastic buckle for the use on automatic loading stretcher Dimensions: about 5x176 cm</p>
-----	--

<p>39.</p>	 <p style="text-align: center;">IMM120286 - SET 2 2-PIECES METAL BUCKLE SAFETY BELTS</p> <p>Set of 2 2-pieces safety belts with loop Quick hook-unhook metal buckle for the use on automatic loading stretcher Dimensions: about 5x152 cm</p>
<p>40.</p>	 <p style="text-align: center;">IMM120321 - PATIENT TRANSFER SHEET OB</p> <p>New transfer sheet, even more resistant Made of red tearproof impermeable PVC material 8 side handles Easily washable and disinfectable Dimensions: about 187x70 cm Weight: about 1200 g Loading: about 150 kg In accordance to EN1865 norm. Perimeter reinforced with a 4cm, double sewn band on both sides In accordance to EN597-1 on devices flammability</p>
<p>41.</p>	 <p style="text-align: center;">IMM120340 - TRANSFER SHEET WITH SAFETY BELTS AND PILLOW</p> <p>Transfer sheet made of extremely resistant, impermeable, washable and disinfectable PVC material 8 handles allowing an easy transport of patient Provided with pillow and safety belts Dynamic resistance at 680 Kg/cm² Dimensions: about 190x70 cm Loading capacity: about 150 kg</p>
<p>42.</p>	 <p style="text-align: center;">IMM120350 - TRANSFER SHEET OB CM 100X70</p> <p>Made of blue waterproof PVC material 4 handles Washable and disinfectable Dimensions: about 100x70 cm</p>

<p>43.</p>	 <p style="text-align: center;">IMM120648 - STIFNECK ADULT ADJUSTABLE COLLAR</p> <p>Adult Stifneck cervical collar with 4 sizes (Low, Short, Regular e Tall) Easy and versatile Perfect immobilization Frontal opening for windpipe check Easy to wash X-ray transparent</p>
<p>44.</p>	 <p style="text-align: center;">IMM120650 - STIFNECK PEDIATRIC ADJUSTABLE COLLAR</p> <p>Adult Stifneck cervical collar with 3 sizes (MINI, MIDI, PEDI) Easy and versatile Perfect immobilization Frontal opening for windpipe check Easy to wash X-ray transparent</p>
<p>45.</p>	 <p style="text-align: center;">IMM120670 - SET OF 4 NECK FORCE CERVICAL COLLARS</p> <p>Economical immobilization cervical collars Made in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic Polyethylene anterior reinforcement with frontal-opening Velcro closing X-ray transparent</p>
<p>46.</p>	 <p style="text-align: center;">IMM120770 - SET OF 3 ECO CERVICAL COLLARS</p> <p>Economic cervical collars, 3 sizes: Small, Medium and Large Realised in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic Velcro closing X-ray transparent</p>

47.

IMM120772 - SET OF 4 ECO CERVICAL COLLARS

Economic cervical collars, 4 sizes: Small, Tall, Medium and Large
Made in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic
Velcro closing
X-ray transparent

48.

IMM120774 - ECO CERVICAL COLLAR SIZE 2 MEDIUM

Economic cervical collar
Made in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic
Velcro closing
X-ray transparent
Size: Medium (2)

49.

IMM120776 - ECO CERVICAL COLLAR SIZE 0 SMALL

Economic cervical collar
Made in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic
Velcro closing
X-ray transparent
Size: Small (0)

50.

IMM120778 - ECO CERVICAL COLLAR SIZE 3 LARGE

Economic cervical collar
Made in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic
Velcro closing
X-ray transparent
Size: Large (3)

51.	 <p style="text-align: center;">IMM120780 - ECO CERVICAL COLLAR SIZE 1 TALL</p> <p>Economic cervical collar Made in high density Elastolen/Veolene, non-deformable (closed cells polyethylene) resistant to external agents, totally non-toxic Velcro closing X-ray transparent Size: Tall (1)</p>
52.	 <p style="text-align: center;">IMM120782 - CERVICAL COLLAR OBNECK INFANT PINK</p> <p>Two-pieces cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: Infant pink</p>
53.	 <p style="text-align: center;">IMM120784 - CERVICAL COLLAR OBNECK PEDIATRIC SKY</p> <p>BLUE Two-pieces cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: Pediatric sky blue</p>
54.	 <p style="text-align: center;">IMM120786 - CERVICAL COLLAR OBNECK NECKLESS PURPLE</p> <p>Two-pieces cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: Neckless purple</p>

55.

IMM120788 - CERVICAL COLLAR OBNECK SHORT BLUE

Two-pieces cervical collar, made with injection mould system
Perfect immobilization of cervical section
Frontal opening for trachea check
Made in polypropylene X-ray transparent with non absorbent padding
Size: Short blue

56.

IMM120790 - CERVICAL COLLAR OBNECK REGULAR ORANGE

Two-pieces cervical collar, made with injection mould system
Perfect immobilization of cervical section
Frontal opening for trachea check
Made in polypropylene X-ray transparent with non absorbent padding
Size: Regular orange

57.

IMM120792 - CERVICAL COLLAR OBNECK TALL GREEN

Two-pieces cervical collar, made with injection mould system
Perfect immobilization of cervical section
Frontal opening for trachea check
Made in polypropylene X-ray transparent with non absorbent padding
Size: Tall green

58.

IMM120794 - SET OF 3 CERVICAL COLLARS OBNECK

Set of 3 two-pieces cervical collars, made with injection mould system
Perfect immobilization of cervical section
Frontal opening for trachea check
Made in polypropylene X-ray transparent with non absorbent padding
Set featuring: 1 Pediatric sky blue, 1 Standard purple, 1 Short blue
Complete with bag

59.		<p align="center">IMM120796 - SET OF 6 CERVICAL COLLARS OBNECK</p> <p>Set of 6 two-pieces cervical collars, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Different colours for an easy identification of sizes Complete with bag</p>
60.		<p align="center">IMM120798 - SET OF 2 PEDIATRIC CERVICAL COLLARS</p> <p>OBNECK Set of 2 two-pieces cervical collars, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Set featuring: 1 Infant pink, 1 Pediatric sky blue Complete with bag</p>
61.		<p align="center">IMM120938 - ADJUSTABLE PATRIOT COLLARS SET – 2 PIECES</p> <p>Set of 2 adult and paediatric adjustable cervical collars Adult collar, 4 positions adjustable (Low, Short, Regular and Tall) Paediatric collar, 3 positions adjustable (Petite, Pedi, Infant) Simple and versatile use Excellent immobilization Wide frontal opening allowing an adequate access to windpipe Easily washable X-Ray transparent Complete with transport bag</p>
62.		<p align="center">IMM121032 - SPIDER IMMOBILIZATION BELTS</p> <p>Immobilization-restraint belts system for spine boards, in compliance with EN 1865 It can be used for all kind of stretcher and patient due to the mobility of the coloured horizontal belts alongside vertical one</p>

Quick hook/unhook fixing system with plastic buckles ensuring easy and fast use
Supplied with carrying bag

63.

IMM121034 - SPIDER IMMOBILIZATION BELTS

It can be used for all kind of stretcher and patient due to the mobility of the coloured horizontal belts alongside vertical one

Velcro fixing system ensuring an easy and fast use

64.

IMM121046 - TYRPOL PEDIATRIC SPINAL BOARD

Pediatric Spinal Board for children's immobilization and transport up to kg. 30 in weight and 120 cm in height
Complete belt system for shoulder, chest, abdomen and legs, adjustable length allowing children's respiratory and circulatory system control

Inferior belt system allows independent legs and ankles treatment

Made in treated multi layer with blue and yellow Tyrpol coating allowing radiology check

X-ray transparent

Expanded polyurethanes layer allowing patient comfort considerable improvement

Complete of 4 lifting and transport handles

Complete with transport bag

Dimensions: about 126x34x2(h) cm

Weight: about 5,1 kg.

Head immobilizer to be purchased separately

65.

IMM121048 - TYRPOL PEDIATRIC SPINAL BOARD COMPLETE

Paediatric Spinal Board for children's immobilization and transport up to kg. 30 in weight and 120 cm in height
Complete belt system for shoulder, chest, abdomen and legs, adjustable length allowing children's respiratory and circulatory system control

Inferior belt system allows independent legs and ankles treatment

Made in treated multi layer with blue and yellow Tyrpol coating allowing radiology check

X-ray transparent

Expanded polyurethanes layer allowing patient comfort considerable improvement

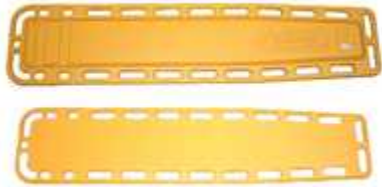

Complete of 4 lifting and transport handles

Complete with transport bag

Complete with head immobilizer and chin-straps

Dimensions: about 126x35x7(h) cm

Weight: about 5,3 kg

66.

IMM121074 - SPINE BOARD OB NEW

High resistant plastic spinal board, suitable on difficult emergency activities
4 buttonholes for quick and total fixing of head immobilizer and 2 hollows placed on leaning side for a traditional base blocking thus allowing strap belts not to get teared during use
Provided with 20 transport handles
X-ray translucent
Maximum load: about 150 kg
Dimensions: length 184x width 41x thickness 5,5 cm about
Weight: about 5,5 kg

67.

WIND HEAD IMMOBILIZER

IMM121076 - SPINE BOARD OB WITH SPIDER BELTS AND

High resistant plastic spinal board, suitable on difficult emergency activities
4 buttonholes for quick and total fixing of head immobilizer and 2 hollows placed on leaning side for a traditional base blocking thus allowing strap belts not to get teared during use
Provided with 20 transport handles
X-ray translucent
Complete with spider belts and bag (IMM121034)
Complete with OB head immobilizer (IMM121628)
Maximum load: about 150 kg
Dimensions: length 184x width 41x thickness 5,5 cm about
Weight: about 5,5 kg

68.

IMM121081 - OB DELTA AUTOMATIC LOADING STRETCHER

Made in lightweight coated aluminium
4 wheels with 200 mm diameter made in polyurethane for a better comfort on irregular floors, 2 fixed and 2 turning with self balancing system
Trendelenburg position available with gas piston to be blocked in every position from 0° to 20°
Coated aluminium alloy legs and back support
Fully adjustable back support and lowering frontal cart
Rigid aluminium structure allowing the absorption of sudden strains due to the emergency vehicle movement
Complete with mattress and belts
Safety lever to avoid accidental legs movement
Certified EN1865-EN1789
Height: 83 cm
Maximum loading height: 62 cm
Height when folded: 26 cm
Width: 56 cm
Length: 197 cm

Capacity: 170 kg
Weight: 37 kg

IMM121082 - OB STRATOS AUTOMATIC LOADING

69. Versatile and easy to use
Strength coated iron structure allowing high resistance and reliability
Reclining and adjustable back support
4 wheels with 200 mm diameter made in polyurethane (2 fixed and braking + 2 turning self balancing), 2 frontal loading whels with fixed cart
Legs movement pistons with mechanical sliding system
Lateral adjustable side
Safety lever to avoid accidental legs movement
Height: 82 cm
Maximum loading height: 66 cm
Height when folded: 27 cm
Width: 56 cm
Length: 195 cm
Capacity: 170 kg
Weight: 34,5 kg

IMM121540 - EMERGENCY STRETCHER X2 WITH 4 WHEELS

70. Emergency stretcher made of lightweight aluminium, in accordance to the European normative DIN 13024
Foldable in length and width with safety blocks on use position
Made in resistant fireproof, tearproof and washable material with central reinforce
Complete with 2 automatic unhook safety belts
Removable handles in plastic non-sliding material
4 wheels
Dimensions (opened): about 230x55,6x13,7 cm
Dimensions (closed): about 104x15x14,5 cm
Weight: about 9 Kg

IMM121628 - UNIVERSAL HEAD IMMOBILIZER OB

71. Universal head immobilizer OB
Made in high density treated yellow foam material, water repellent.
Featuring 1 basic pillow, two head support pillows with opening for ears access, 2 chin supports with central padding and 2 straps with Velcro already integrated to the basis for the positioning of the head Immobilizer on the stretcher
X-Ray translucent
Dimensions: about 42,5x26,5x16 cm
Weight: about 900 gm

72.	 <p style="text-align: center;">IMM121634 - SET OF 2 CHIN-STRAPS</p> <p>Set of 2 universal chin-straps for head immobilizer</p>
73.	 <p style="text-align: center;">IMM121640 - WIND UNIVERSAL HEAD IMMOBILIZER</p> <p>Realized in stuffed MDF and covered with washable, disinfectable, water repellent and thermo-welded material 2 head-fixing-pillows with opening for access to the ears are integrated at the base and are part of the base itself if not used Allows fixed head immobilizer storage with stretcher Complete of 2 chin straps and 2 Velcro straps, 8 belts with loop and 2 velcro bands for the fixing to the spinal board. X-ray translucent. Dimensions: about 44,5x30x2,5 cm Weight: about 1,2 kg</p>
74.	 <p style="text-align: center;">IMM121652 - SET OF 4 HEAD IMMOBILIZER BELTS</p> <p>Set of 4 head belts for OB and WIND head immobilizer with loop</p>
75.	 <p style="text-align: center;">IMM121654 - SET OF 2 VELCRO STRAPS FOR AND WIND HEAD IMMOBILIZERS</p> <p>Set of 2 velcro straps for OB and WIND head immobilizers</p>
76.	 <p style="text-align: center;">IMM121664 - SET OF 2 CHIN-STRAPS FOR SPINAL IMMOBILIZER</p> <p>Set of 2 chin-straps for spinal immobilizer</p>

77.

IMM121960 - EED SPINAL IMMOBILIZER RED

Allows immobilization and extrication of patients from hardly accessible places
Wrapping structure and high use flexibility
It optimally immobilizes trunk, head and spinal column
Equipped with coloured rapid hook/unhook ribbons and buckles
Made in resistant washable and tearproof red material
Entirely X-ray transparent
Transport bag also suitable for cervical collars
Weight: about 3,3 kg

78.

IMM121962 - EED SPINAL IMMOBILIZER BLUE

Allows immobilization and extrication of patients from hardly accessible places
Wrapping structure and high use flexibility
It optimally immobilizes trunk, head and spinal column
Equipped with coloured rapid hook/unhook ribbons and buckles
Made in resistant washable and tearproof blue material
Entirely X-ray transparent
Transport bag also suitable for cervical collars
Weight: about 3,3 kg

79.

IMM121964 - EED SPINAL IMMOBILIZER GREEN

Allows immobilization and extrication of patients from hardly accessible places
Wrapping structure and high use flexibility
It optimally immobilizes trunk, head and spinal column
Equipped with coloured rapid hook/unhook ribbons and buckles
Made in resistant washable and tearproof green material
Entirely X-ray transparent
Transport bag also suitable for cervical collars
Weight: about 3,3 kg

80.

IMM121966 - EED SPINAL IMMOBILIZER YELLOW/BLUE

Allows immobilization and extrication of patients from hardly accessible places

Wrapping structure and high use flexibility
 It optimally immobilizes trunk, head and spinal column
 Equipped with coloured rapid hook/unhook ribbons and buckles
 Made in resistant washable and tearproof yellow/blue Tyropol
 Entirely X-ray transparent
 Transport bag also suitable for cervical collars
 Weight: about 3,8 kg

81. 

IMM121968 - PEDIATRIC EED SPINAL IMMOBILIZER

Allows immobilization and extrication of patients from hardly accessible places
 Wrapping structure and high use flexibility
 It optimally immobilizes trunk, head and spinal column
 Equipped with coloured rapid hook/unhook ribbons and buckles
 Made in resistant washable and tearproof fantasy material
 Entirely X-ray transparent
 Transport bag
 Dimensions open: about 63x67 cm
 Dimensions bag: about 76x31x14 cm
 Weight: about 2,2 kg

82. 

IMM121970 - CASE FOR EED SPINAL IMMOBILIZER

Transport bag for EED spinal immobilizer

83. 

IMM122050 - ANATOMIC PILLOW FOR STRETCHER

Anatomic pillow for stretcher
 Made in antibacterial, fireproof, washable material
 Completely thermo-welded
 Dimensions: about 40x27x7 cm
 Weight: about 300 g

84. 

IMM122070 - CONFORMING PILLOW FOR STRETCHER

Conforming orange pillow for stretchers
 Made in antibacterial, fireproof, washable material
 Completely thermo-welded

	<p>Dimensions: about 38x25x14 cm Weight: about 400 g</p>
85.	 <p>IMM122080 - SET OF 3 SAFETY BELT PAIRS</p> <p>Complete set of 3 pairs security belts (shoulder, chest, legs) for stretcher with loop Rapid unlooked metal buckles 2 stuffing passing trough the shoulder belts for a better comfort Adaptable to all type of stretchers Belts system according to the EN 1789 norm</p>
86.	 <p>IMM123020 - ROLLSPLINT</p> <p>Adjustable lightweight splint suitable for fractures, washable and disinfectable. Covered with atoxic material X ray translucent Dimensions: about 92x11 cm</p>
87.	 <p>IMM123024 - ROLLSPLINT XL 15x100 cm</p> <p>Adjustable lightweight splint suitable for fractures, washable and disinfectable. Covered with atoxic material X ray translucent Dimensions: about 100x15 cm</p>
88.	 <p>IMM123100 - UPPER LIMBS RIGID SPLINT</p> <p>Rigid splint for upper limbs immobilization Made in PVC and Nylon Washable and X-ray transparent Velcro closing Dimensions: about 51x27,5x3,5 cm Weight: about 0,6 kg</p>

89.	 <p style="text-align: center;">IMM123110 - INFERIOR LIMBS RIGID SPLINT</p> <p>Rigid splint for inferior limbs immobilization Made in PVC and Nylon Washable and X-ray transparent Velcro closing Dimensions: about 74x40x3,5 cm Weight: about 1,1 kg</p>
90.	 <p style="text-align: center;">IMM123120 - 2 RIGID SPLINTS SET</p> <p>2 rigid splints set for upper and inferior limbs immobilization Made in PVC and Nylon Washable and X-ray transparent Velcro closing Transport bag with handle Dimensions inferior limb: about 74x40x3,5 cm Dimensioni upper limb: about 51x27,5x3,5 cm Dimensions in bag: about 76x19x19 cm Weight: about 2,1 kg</p>
91.	 <p style="text-align: center;">IMM123152 - BAG FOR SSPLINT</p> <p>Ssplint rigid splint bag Dimensions: about 64x15x29 cm Weight: about 500 gm</p>
92.	 <p style="text-align: center;">IMM123201 - ARM-SHOULDER IMMOBILIZER</p> <p>Medical device suitable for arm and shoulder immobilization Particularly indicated for post-surgery treatments, scapula, humerus and humerus extremity fractures Made in compound expanded polyurethane material covered with velvet-like material Adjustable straps around the shoulder for a better immobilization Transverse band for shoulder blocking Adjustable velcro closing</p>

93.

IMM123203 - ARM-SHOULDER IMMOBILIZER XL

Medical device suitable for arm and shoulder immobilization
Particularly indicated for post-surgery treatments, scapula, humerus and humerus extremity fractures
Made in compound expanded polyurethane material covered with velvet-like material
Adjustable straps around the shoulder for a better immobilization
Transverse band for shoulder blocking
Adjustable velcro closing

94.

IMM124030 - OB SSPLINT SET OF 5

Splint system set with aluminium core for easy limbs immobilization in case of fracture or sprain
Made in neoprene material
Adaptable to fit each body frame
It does not produce tissues compressions
It maintains body temperature
It reduces congestion around injured areas
Velcro modelling closing
Lightweight and easily washable even in washing-machine
Least encumbrance
Complete with bag
Dimensions with bag: about 64x15x29(h) cm
Weight: about 1,8 kg
Not suitable for femur fractures

95.

IMM124031 - LEG OB SSPLINT

Splint with aluminium core for easy limbs immobilization in case of fracture or sprain
Made in neoprene material
Adaptable to fit each body frame
It does not produce tissues compressions
It maintains body temperature
It reduces congestion around injured areas
Velcro modelling closing
Lightweight and easily washable even in washing-machine
Least encumbrance
Dimensions: about 58x21x0,6 cm
Weight: about 370 gm
Not suitable for femur fractures

IMM124032 - ARM OB SSPLINT

96. Splint with aluminium core for easy limbs immobilization in case of fracture or sprain
Made in neoprene material
Adaptable to fit each body frame
It does not produce tissues compressions
It maintains body temperature
It reduces congestion around injured areas
Velcro modelling closing
Lightweight and easily washable even in washing-machine
Least encumbrance
Dimensions: about 60,5x17x0,6 cm
Weight: about 300 gm
Not suitable for femur fractures

IMM124033 - FOREARM OB SSPLINT

97. Splint with aluminium core for easy limbs immobilization in case of fracture or sprain
Made in neoprene material
Adaptable to fit each body frame
It does not produce tissues compressions
It maintains body temperature
It reduces congestion around injured areas
Velcro modelling closing
Lightweight and easily washable even in washing-machine
Least encumbrance
Dimensions: about 39x16x0,6 cm
Weight: about 200 gm
Not suitable for femur fractures

IMM124034 - WRIST OB SSPLINT

98. Splint with aluminium core for easy limbs immobilization in case of fracture or sprain
Made in neoprene material
Adaptable to fit each body frame
It does not produce tissues compressions
It maintains body temperature
It reduces congestion around injured areas
Velcro modelling closing
Lightweight and easily washable even in washing-machine
Least encumbrance
Dimensions: about 32x15x0,6 cm

	<p>Weight: about 150 gm Not suitable for femur fractures</p>
99.	 <p>IMM124035 - ANKLE OB SSPLINT</p> <p>Splint with aluminium core for easy limbs immobilization in case of fracture or sprain Made in neoprene material Adaptable to fit each body frame It does not produce tissues compressions It maintains body temperature It reduces congestion around injured areas Velcro modelling closing Lightweight and easily washable even in washing-machine Least encumbrance Dimensions: about 57x18x0,6 cm Weight: about 280 gm Not suitable for femur fractures</p>
100.	 <p>IMM124100 - CERVICAL COLLAR OB NEW SIZE 0 INFANT PINK</p> <p>One-piece cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: 0 infant pink</p>
101.	 <p>IMM124102 - CERVICAL COLLAR OB NEW SIZE 1 PEDIATRIC SKY BLUE</p> <p>One-piece cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: 1 pediatric sky blue</p>
102.	 <p>IMM124104 - CERVICAL COLLAR OB NEW SIZE 2 NECKLESS</p>

	<p>PURPLE One-piece cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: 2 neckless purple</p>
103.	 <p style="text-align: center;">IMM124106 - CERVICAL COLLAR OB NEW SIZE 3 SHORT BLUE</p> <p>One-piece cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: 3 short blue</p>
104.	 <p style="text-align: center;">IMM124108 - CERVICAL COLLAR OB NEW SIZE 4 REGULAR</p> <p>ORANGE One-piece cervical collar, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Size: 4 regular orange</p>
105.	 <p style="text-align: center;">IMM124112 - SET OF 3 CERVICAL COLLARS OB NEW</p> <p>Set of 3 one-piece cervical collars, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Set featuring: 1 Pediatric sky blue, 1 Neckless purple, 1 Short blue Complete with bag</p>
106.	 <p style="text-align: center;">IMM124114 - SET OF 4 CERVICAL COLLARS OB NEW</p> <p>Set of 4 one-piece cervical collars, made with injection mould system Perfect immobilization of cervical section</p>

	<p>Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Set featuring: 1 Pediatric sky blue, 1 Neckless purple, 1 Short blue, 1 Regular orange Complete with bag</p>
<p>107.</p>	 <p style="text-align: center;">IMM124116 - SET OF 6 CERVICAL COLLARS OB NEW</p> <p>Set of 6 one-piece cervical collars, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Made in polypropylene X-ray transparent with non absorbent padding Differently coloured for an easy identification of size Complete with bag</p>
<p>108.</p>	 <p style="text-align: center;">IMM124118 - SET OF 6 CERVICAL COLLARS OB NEW</p> <p>Set of 2 pediatric one-piece cervical collars, made with injection mould system Perfect immobilization of cervical section Frontal opening for trachea check Different colours for an easy size identification Made in polypropylene X-ray transparent with non absorbent padding Set featuring: 1 infant, 1 pediatric Complete with fantasy coloured bag</p>
<p>109.</p>	 <p style="text-align: center;">IMM125050 - AS PANTS</p> <p>Anti-shock pants for patients experiencing hypovolemic shock Easy application 3 independent chambers 3 Ventil valves with ¼ on/off 3 security valves calibrated at 105 mm/Hg 3 monitoring manometers with rubber protection Consistent pressure Large groin-opening Internal tubes 1 single connection for the pump and the 3 chambers Chambers protection made in tearproof material 1 inflation pump 1 fabric transport case</p>

110.

PHP-PA - ADJUSTABLE ADULT PATRIOT CERVICAL COLLAR

Adult cervical collar
4 positions adjustable (Low, Short, Regular and Tall)
Simple and versatile usage
Excellent immobilization
Wide frontal opening allowing an adequate access to windpipe
Easily washable
X-Ray transparent

111.

PHP-PP - ADJUSTABLE PEDIATRIC PATRIOT CERVICAL

COLLAR
Adult cervical collar
3 positions adjustable
Simple and versatile usage
Excellent immobilization
Wide frontal opening allowing an adequate access to windpipe
Easily washable
X-Ray transparent
