| 1.       |  <p>25890 <b><u>DISPOSABLE STERILE SKIN STAPLER</u></b></p> <p><b>STAPLER</b><br/>Simple and easy to operate. Staples are made of High Quality 317 L Stainless Steel for medical use, each device is provided of 35 staplers. High sewing up and stapling speed help shorten the time of sewing and avoid cross infection of contagious diseases. Reduced tissue reaction, thinner scar after operation and faster wound healing. Painless and convenient staples removal after the incision has healed up. To be used for skin closure in operating room, labour and delivery, emergency department, outpatient surgery, clinics and physician's office.</p> | 8,50                     |

| <p>27.</p> |  <p>25930 <b><u>CLINITRO SUTURE GAUGE 2/0</u></b></p> <p><b><u>NEEDLE 24 mm</u></b></p> <p>It is indicated in procedures where non-absorbable monofilament sutures are required, especially skin and fascia closure. Clinitro is used in place of nylon for skin closure. The material is much softer and more pliable . Tensile strength is higher than nylon and knot holding is far superior. Our SG (Super Glide) are all premium reverse cutting needles.
