

# PLX6500 High Frequency X-ray Radiograph System

## Application

- Used to photograph patient's head, chest, stomach, lumbar and extremities

## Features

- Close-table graphical colorful LCD touch screen and wireless remote control exposure
- The latest compact high-frequency and high-voltage X-ray generator
- High frequency high voltage X-ray source and high frequency inverter power supply
- Possess multiple automatic protection and fault clue function

## Main Technical Parameters

Item	Contents
Power output	55kW
Frequency	60kHz
Tube Voltage	40~140kV
MA	10~500mA
