

COURAGE-KHAZAKA ODOS PARAMETRŲ NUSTATYMO PRIETAISAI

Eil. Nr.	Aprašymas
1.	 <p>G072EF/IE Multi Dermoscope MDS 1000 Instrument for the recommendation of skin and hair care by determination of sebum, moisture, from 10 pc: pigmentation and elasticity on the skin surface (index), with built-in video monitor and the camera Visioscope® AP 35 to monitor skin and hair with parallel and cross polarized light. Incl. accessories, sebum measuring cartridge for approx. 400 measurements, 100 Sebufix F 16, 100 Corneofix F 20 (languages for printing on the device: EF = English/French, IE = Italian/English, see order number)</p>
2.	 <p>G071E Beauty Analyzer B3 Instrument for the recommendation of skin and hair care by determination of sebum, moisture and pigmentation (sun care), accessories: external power supply and power cable, sebum measuring cartridge for approx. 400 measurements, probes</p>
3.	 <p>G064 Elastometer EM 25 Device to determine the skin elasticity by suction (index), incl. accessories</p>
4.	 <p>G110D VisioFace® 1000 D Full face photo booth with white diode illumination and high resolution reflex digital camera. Software "CSI – Complete Skin Investigation" to analyze spots, pores, wrinkles, etc. A "UV-like" image is created. Incl. accessories. Only USB connection necessary.</p>
5.	 <p>G110L VisioFace® lite Full face photo booth, extremely small, lightweight and in an attractive design. Mini camera with 5 MPixel, On the photos spots, pores, wrinkles, etc. can be analyzed. A "UV-like" image is created. Incl. software "CSI – Complete Skin Investigation" and accessories. Only USB connection necessary.</p>
6.	 <p>G094 Multi Skin Test Center MC 1000 Multifunctional device in an attractive design equipped with moisture, sebum and melanin and elasticity (suction method) probes measurement (index measurement) and the Visioscope® PC 35 camera. Delivery content comprises the accessories and the software „CSI – Complete Skin Investigation“ to record the measurements and to analyze the camera images. It allows the recommendation of skin and hair care and sunscreens. Additional probes of choice can be connected (see optional probes).</p>
7.	 <p>G097 Multi Skin Test Center MC 750 Multifunctional device to connect different probes. Delivery content comprises the accessories and the software „CSI – Complete Skin Investigation“. To the below models additional probes and the camera Visioscope® PC 35 can be added (see optional probes).</p>
Modeliai:	
G097A1 Model A1 basic unit equipped with moisture and sebum measurement (index)	
G097A2 Model A2 see A1 and additional measurement of transepidermal waterloss (index) Model A1 and A2 cannot be equipped with the elasticity measurement later on.	
G097B1 Model B1 see A1 and additional measurement of elasticity (suction method)	
G097B2 Model B2 complete package: see B1 and additional measurement of melanin/erythema (index)	
Priedai:	
S0041 Melanin/Erythema measurement (index), black handle	

		S0043 Melanin/Erythema measurement (index), white handle for MDS/MC 1000
		S0071 pH-measurement probe, black handle
		S0073 pH-measurement probe, white handle for MC 1000
		S0081 Transepidermal waterloss index probe (barrier quality of the skin), black handle
		S0083 Transepidermal waterloss index (barrier quality of the skin), white handle for MC 1000
		S0093 Skin temperature probe, black handle
		S0094 Skin temperature probe, white handle for MC 1000
		S0031 Moisture probe (index), black handle
		S0033 Moisture probe (index), white handle for MDS/MC 1000
		S0021 Elasticity measurement probe by suction (index), black handle
		S0021 Elasticity measurement probe by suction (index), white handle for MDS/MC 1000
		S0111 Color measurement probe for hair (CSI-software), black handle
		S0112 Color measurement probe for hair (CSI-software), white handle for MC 1000
C+K camera systems		
8.		G033PC Visioscope® PC 35 USB- camera with parallel and cross polarized light to monitor the skin surface and hair, incl. Holder and software „CSI – Complete Skin Investigation“ and Sebuffix F 16 + Corneofix F 20 (each 100 pc.)
9.		G033PP VISIOPOR PP 34 N Fluorosencinis poliarizuotos šviesos odos diagnostikos prietaisas su laikikliu. Speciali video kamera maitinama iš USB. Programinė įranga
10.	Priedai įvairiems prietaisams:	
	Z0010M Sebum measurement tape for ~ 400 measurements (for MDS 1000, MC-devices, B3, SD27)	
	Z0370/0374 Sebuffix F 16 à 100/2000 pc.	
	Z0380/0384 Corneofix F 20 à 100/2000 pc. Prices for larger quantities on request	
	Z0014 external power supply (C+K Standard)	
	Z0652 Suitcase with special inlet for the MC 1000 and its accessories	
11.		G061E Skin Diagnostic SD 27 Instrument for the recommendation of skin and hair care by determination of sebum and moisture on the skin surface (index), including accessories and battery
12.		G062E Sun Protection Diagnostic SP 37 Instrument for the recommendation of sunscreens by the determination of the sun protection factor and natural protection time with melanin measurement, including accessories: battery, melanin measuring probe (index)
13.		G083 Hydrosensor Small plastic device to measure skin hydration (index) with regards to ambient temperature and humidity, incl. accessories and battery
14.	Priedai portatyviniams aparatams:	
	Z0616 External power supply (for SD 27, SP 37, SPA 99 and SD 202)	
	Z0622 Suitcase with special inlet for the SPA 99 and its accessories	
	Z0617 Suitcase with special inlet for the SD 27/SP 37 and its accessories	
15.		S0047LR Skintone Pen TP 20 Single Pen shaped melanin measurement probe with LED display (0-99), Power supply by 2 AA batteries, including a chart for laser/IPL-risk assessment and a small suitcase
16.		G063 Skin Pigmentation Analyser SPA 99 Instrument for the determination of changes in skin color (pigmentation- and

	redness-index 0-99), including a chart for laser/IPL-risk assessment and accessories in a small suitcase
17.	 <p>G098 LR Skin Diagnostic SD 202 Instrument for the determination of hydration, sebum and changes in pigmentation- and redness /all results as index from 0-99), including a chart for laser/IPL-risk assessment and accessories in a small suitcase</p>
18.	 <p>S0037 Hydro Pen HP 10 Pen shaped hydration measurement probe with LED display (0-99), Power supply by 2 AA batteries, Minimum order quantity: 10 units</p>
19.	<p>S0067 Sebu Pen SP 15 Pen shaped Sebum Pad Measurement probe with LED display (0-99), Power supply by 2 AA batteries, incl. measurement pads, Minimum order quantity: 10 units</p>
20.	 <p>S0047 Skintone Pen TP 20 Pen shaped melanin measurement probe with LED display (0-99), Power supply by 2 AA batteries, Minimum order quantity: 10 units</p>
21.	 <p>G139CK Visioscope® Palm VP 25, Set: Handheld monitor and camera: Images can be taken with parallel and cross polarized light and can be frozen on the monitor. Minimum order quantity: 1 unit</p>
22.	 <p>G147 Pen Station PS 100 Set: Pen probes S0037, S0047 and S0067 and Visioscope Palm VP 25 (G139CK) in a table holder. Minimum order quantity: 1 unit</p>
23.	<p style="text-align: center;">Priedai:</p> <p>Z0037 Sebum Pads P 49 for Sebu Pen SP 15 (49 pcs.)</p> <p>Z053 Suitcase for Pen Station</p> <p>Z0653 Suitcase for Single Pen Probes</p> <p>Z0016 external power supply for Visioscope® Palm</p>
